      }
    }
  },
  "fulfillments": []
}

```

Where to Find the Shipping Method

- Look under **shippingLine** → **code**
- This field encodes carrier, method, and pickup point (optional).

Examples

- bring-bring2_business_parcel
- bring-bring2_parcel_pickup_point-129485
- postnord-postnord_19_box-2983096

Code Structure Breakdown

<carrier>-<shipping_method>-<pickup_point_id?>

- **Carrier** → e.g., bring, postnord, etc
- **Shipping method** → e.g., bring2_business_parcel, postnord_19_box
- **Pickup point ID** (*optional*) → numeric value, present if it's a pickup point delivery (e.g., 129485)
